KUNAL DIGAMBAR RAYATE

Java Full Stack Developer

Email: kunalrayate7713@gmail.com | Phone: +91 9699765065 | Location: Antapur, Maharashtra, India
LinkedIn | GitHub

PROFESSIONAL SUMMARY

Java Full Stack Developer with 6 months of hands-on internship experience designing and developing RESTful APIs and web applications using Java, Spring Boot, Spring MVC, Spring Security (JWT), Hibernate/JPA, MySQL and Angular. Built three end-to-end projects: a multi-vendor e-commerce platform, an AI-powered coding platform with Spring AI and LLM integration, and a student attendance system. Strong foundation in Object-Oriented Programming, Data Structures & Algorithms and relational database design. Pursuing an MCA and seeking a Java Developer / Full Stack Developer role to build scalable, secure and high-performance applications.

EDUCATION

Master of Computer Application (MCA) 2025 – 2027 (Pursuing)
Vishwakarma University, Pune

Bachelor of Computer Science 2021 – 2024
Savitribai Phule Pune University, Pune | Percentage: 71.1%

Higher Secondary Education (HSC) 2019 – 2021
Maharashtra Higher Secondary School, Taharabad | Percentage: 65.17%

Secondary Education (SSC) 2018 – 2021
Maharashtra Secondary School, Antapur | Percentage: 64%

TECHNICAL SKILLS

Languages: Java, Python, SQL, JavaScript
Backend & Frameworks: Spring Boot, Spring MVC, Spring Security, JWT, Hibernate, JPA, REST APIs, JDBC
Frontend: Angular, HTML, CSS, JavaScript, Bootstrap
Databases: MySQL, PostgreSQL, SQL
AI & Emerging Technologies: Spring AI, Large Language Models (LLMs), AI Integration
CS Fundamentals: Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), Dynamic Programming
Tools: Git, GitHub, Maven, Postman, IntelliJ IDEA, Eclipse, VS Code, PyCharm, Jira
Soft Skills: Problem Solving, Leadership, Project Management, Teamwork

WORK EXPERIENCE

Trainee Developer Intern | Kiran Academy, Pune November 2024 – May 2025 (6 Months)

- Completed a 6-month internship focused on web application development using Java and Spring Boot.
- Contributed to the development of **DigitalRollCall**, a Java-based student attendance management system.
- Developed REST APIs for student, subject, user and attendance management.
- Integrated MySQL for reliable data persistence using Hibernate/JPA.
- **Tech/Tools used:** Java, Spring Boot, Hibernate, JPA, MySQL, REST APIs, Maven

PROJECTS

Bazaarly – Full-Stack E-Commerce Platform | GitHub

- Built a multi-vendor e-commerce platform for customers, sellers and administrators, secured with Spring Security and JWT authentication.
- Implemented product search, filtering, sorting and pagination, plus shopping cart, wishlist, coupons, order placement, payment workflow and order tracking.
- Created seller dashboards for product, inventory and order operations, and admin features for seller approvals and platform oversight.
- Added product reviews, ratings and personalized recommendations.
- **Technologies used:** Java, Spring Boot, Hibernate/JPA, Spring Security, JWT, MySQL, Angular, HTML, CSS, Maven

CodeMentor AI – AI-Powered Coding Learning Platform | GitHub

- Developed an AI-powered learning platform that helps developers understand technical concepts and practice coding with intelligent assistance.
- Integrated AI capabilities into a Java application using Spring AI for programming explanations, AI-generated quizzes and knowledge assessment.
- Implemented intelligent question answering based on supported learning materials and built backend REST APIs for application functionality.
- **Technologies used:** Java, Spring Boot, Spring AI, REST APIs, Hibernate/JPA, MySQL, Angular, HTML, CSS, Maven

DigitalRollCall – Student Attendance System | GitHub

- Developed a Java-based attendance management system with REST APIs for managing students, subjects, users and attendance records.
- Implemented CRUD operations for students, subject-wise attendance tracking, and user registration and login.
- Built separate API queries for administrators and faculty, attendance recording (student, subject, date, time, faculty) and history retrieval with date and subject filtering.
- Integrated MySQL for persistent data storage.
- **Technologies used:** Java 17, Spring Boot, Spring Web, Hibernate, JPA, MySQL, Maven, REST APIs

CERTIFICATIONS

Full Stack Developer | The Kiran Academy, Pune July 2024 – December 2024

Internship Certification | Kiran Academy, Pune November 2024 – May 2025
