## PROFESSIONAL SUMMARY

MCA student with 6 months of internship experience building REST APIs and web applications using Java, Spring Boot, Hibernate/JPA, MySQL and Angular. Built three projects, including a JWT-secured e-commerce platform and an AI-powered coding platform using Spring AI. Strong foundation in OOP and data structures and algorithms. Seeking an entry-level Java Developer or Java Full Stack Developer role.

## EDUCATION

**Master of Computer Application (MCA)** – Vishwakarma University, Pune — 2025 – 2027 (Pursuing)
**Bachelor of Computer Science** – Savitribai Phule Pune University, Pune | 71.1% — 2021 – 2024
**Higher Secondary Education (HSC)** – Maharashtra Higher Secondary School, Taharabad | 65.17% — 2020 – 2021
**Secondary Education (SSC)** – Maharashtra Secondary School, Antapur | 64% — 2019

## TECHNICAL SKILLS

**Languages:** Java, SQL, JavaScript
**Backend & Frameworks:** Spring Boot, Spring MVC, Spring Security, JWT, Hibernate, JPA, REST APIs, JDBC
**Frontend:** Angular, HTML, CSS, JavaScript, Bootstrap
**Databases:** MySQL, PostgreSQL
**AI & Emerging Technologies:** Spring AI, Large Language Models (LLMs), AI Integration
**CS Fundamentals:** Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), Dynamic Programming
**Tools:** Git, GitHub, Maven, Postman, IntelliJ IDEA, Eclipse, VS Code, Jira, Vercel, Render
**Soft Skills:** Problem Solving, Leadership, Project Management, Teamwork

## INTERNSHIP EXPERIENCE

**Trainee Developer Intern | Kiran Academy, Pune** — November 2024 – May 2025 (6 Months)

- Contributed to **DigitalRollCall**, a Java-based student attendance management system, during a 6-month web development internship.
- Developed REST APIs for student, subject, user and attendance management, with MySQL integration using Hibernate/JPA.
- **Tech/Tools used:** Java, Spring Boot, Hibernate, JPA, MySQL, REST APIs, Maven

## PROJECTS

**Bazaarly – Full-Stack E-Commerce Platform** | LINK

- Built a multi-vendor e-commerce platform for customers, sellers and administrators, secured with Spring Security and JWT.
- Implemented search, filtering, pagination, cart, wishlist, coupons, order placement, payment workflow and order tracking.
- Created seller dashboards for products, inventory and orders, and admin tools for seller approvals; added reviews, ratings and recommendations.
- **Technologies used:** Java, Spring Boot, Hibernate/JPA, Spring Security, JWT, MySQL, Angular, HTML, CSS, Maven

**CodeMentor AI – AI-Powered Coding Learning Platform** | LINK

- Developed a platform where developers learn concepts and practice coding, with AI features built on Spring AI in a Java application.
- Added AI-generated explanations and quizzes, question answering based on supported learning materials, and backend REST APIs.
- **Technologies used:** Java, Spring Boot, Spring AI, REST APIs, Hibernate/JPA, MySQL, Angular, HTML, CSS, Maven

**DigitalRollCall – Student Attendance System** | LINK

- Built a Java attendance system with REST APIs to manage students, subjects, users and attendance records, including user registration and login.
- Implemented separate API queries for administrators and faculty, and attendance recording with history filtered by date and subject, stored in MySQL.
- **Technologies used:** Java 17, Spring Boot, Spring Web, Hibernate, JPA, MySQL, Maven, REST APIs

## CERTIFICATIONS

**Full Stack Developer** – The Kiran Academy, Pune — July 2024 – December 2024
**Internship Certification** – Kiran Academy, Pune — November 2024 – May 2025
**Java (Basic) Certification** – HackerRank | LINK
